

CYBER SERIES

MOTORIZED SCREEN

4:3/16:9 200" Large-Format Immersive Viewing Experience

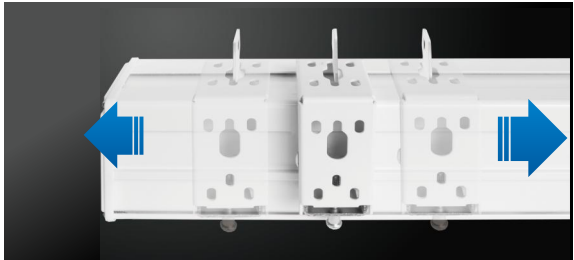

Design Philosophy

The Cyber Series blends streamlined modern design with classical architectural aesthetics. Inspired by Renaissance-era Corinthian columns and balanced by golden-ratio proportions, it pairs refined styling with premium structural components. The result is a screen that delivers both artistic elegance and reliable, long-term performance.

An imported ultra-quiet motor provides strong torque and smooth, silent movement, while the large-diameter roller prevents central “V-shaped” distortion and maintains excellent surface flatness over time.

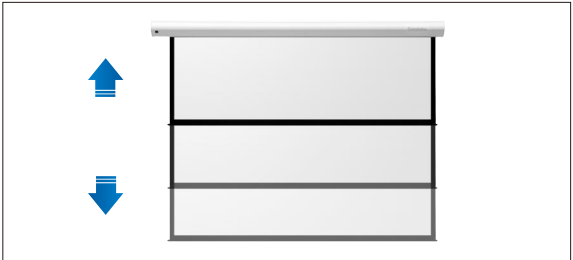

Core Advantages

Flexible Installation
Ceiling, wall, or suspended installation—ideal for home, commercial, and educational environments.

Classic, Durable Design
Full aluminum housing inspired by Roman column contours for a timeless and practical aesthetic.

Electronic Limit Protection
Accurately controls travel range to prevent damage from over-extension.

Ultra-Quiet Imported Motor
Delivers powerful torque, stable motion, and exceptionally quiet operation.

Versatile Smart Control
Supports RS485/232, dry-contact, onboard control buttons, IR modules, external RF receivers, smart sync power controllers, and low-voltage wireless triggers.

Compatible Screen Fabrics

- WM5

Fiberglass Matte White Fabric
- GM5

Fiberglass Matte Grey Fabric
